

CONGRATULATIONS ON YOUR MICROZOOM MICROSCOPE PURCHASE!

We are certain you will love the excellent image quality, ease of use, and durability. To make sure you have the most success using the MicroZoom microscope, we have included some helpful information below.

The software disc included with your microscope will work with all Mac and Windows computers and is compatible with Chromebooks when used as an external camera.

If you do not have a disc drive built into your computer, please use this link to download the most current software version for the MicroZoom 2MP or the MicroZoom WiFi/USB microscopes.
